## FORESTHILL TELEPHONE COMPANY STATEMENT RE: COMPLIANCE WITH FCC CPNI RULES FEBRUARY 1, 2006

The following statement explains how operating procedures observed by Foresthill Telephone Company ("Foresthill") ensure that it is in compliance with the rules in Subpart U of Part 64 of Title 47 of the Code of Federal Regulations.

Foresthill changed ownership in August of 2006. Although it is believed that prior to the change in ownership, no CPNI issues existed. In the four months since this change in ownership, ending December 31, 2005, Foresthill did not use Customer Proprietary Network Information ("CPNI") to market services. Foresthill's current policy is to refrain from using CPNI for marketing purposes. By declining to use CPNI for any of the circumscribed purposes identified in Subpart U of Part 64 of Title 47 of the Code of Federal Regulations, Foresthill has not undertaken to obtain customer consent to use CPNI and, therefore, requires no formal system in place to differentiate those customers who have granted consent to use their CPNI and those customers who have not granted such consent.

Foresthill has the following protection measures in place. First, Foresthill has filed state tariff rules and procedures that address the protection of confidential subscriber information, including CPNI. Second, Foresthill undertakes periodic reviews of company practices to ensure that Foresthill remains in compliance with CPNI rules. Third, Foresthill requires that each of its employees sign confirmations of company policy protecting confidential subscriber information. Fourth, Foresthill trains its customer representatives to conform to confidentiality practices.
